Plant Cell, Tissue and Organ Culture (2005) 80: 375–378

CONTENTS Volume 81 2005

Volume 81 No. 1 April 2005

Improved green plant regeneration rates from oat anther culture and the agronomic performance of some DH lines
E. Kiviharju, S. Moisander, J. Laurila 1–9

Early detection of grapevine leafroll virus in *Vitis vinifera* using *in vitro* micrografting
R. Pathirana, M.J. McKenzie 11–18

Seasonal effect on tissue culture response and plant regeneration frequency from non-bombarded and bombarded immature scutella of barley (*Hordeum vulgare*) harvested from controlled environment
V.K. Sharma, R. Hänsch, R.R. Mendel, J. Schulze 19–26

Cycle characteristics in a temporary immersion bioreactor affect regeneration, morphology, water and mineral status of coffee (*Coffea arabica*) somatic embryos
J. Albarrán, B. Bertrand, M. Lartaud, H. Etienne 27–36

Embryo induction and regeneration from root explants of *Medicago truncatula* after osmotic pre-treatment
A. Iantcheva, S. Slavov, E. Prinsen, M. Vlahova, H. van Onckelen, A. Atanassov 37–43

Role of polyamines in adventitious shoot morphogenesis from cotyledons of cucumber *in vitro*
C. Zhu, Z. Chen 45–53

Development of cotton transgenics with antisense *AV2* gene for resistance against cotton leaf curl virus (CLCuD) via *Agrobacterium tumefaciens*
Sanjaya, V.V. Satyavathi, V. Prasad, N. Kirthi, S.P. Maiya, H.S. Savithri, G.L. Sita 55–63

Polyacetylenes accumulation in *Ambrosia maritima* hairy root and cell cultures after elicitation with methyl jasmonate
S.A. Zid, Y. Orihara 65–75

Influence of arginine, ornithine, DFMO and polyamines on division of the generative nucleus in cultured pollen tubes of *Aechmea fasciata* (Bromeliaceae)
I. Vervaeke, L. Stichelbout, E. Londers, R. Deroose, M.P. De Proft 77–82

Effects of antioxidants on the plant regeneration and GUS expressive frequency of peanut (*Arachis hypogaea*) explants by *Agrobacterium tumefaciens*
Z. Qiusheng, J. Bao, L. Likun, X. Xianhua 83–90

Research notes

Putrescine enhances somatic embryogenesis and plant regeneration in upland cotton
H.F. Sakhanokho, P. Ozias-Akins, O.L. May, P.W. Chee 91–95

Enhancement of synthetic seed conversion to seedlings in hybrid rice
M.B.A. Kumar, V. Vakeswaran, V. Krishnasamy 97–100

Anther culture and cold treatment of floral buds increased symmetrical and extra nuclei frequencies in soybean pollen grains
L.R. Rodrigues, J.M.S. Oliveira, J.E.A. Mariath, L.B. Iranço, M.H. Bodanese-Zanettini 101–104

Effects of *in vitro* rooting environments and irradiance on growth and photosynthesis of strawberry plantlets during acclimatization
Y.-H. Zhou, D.-P. Guo, Z.-J. Zhu, Q.-Q. Qian **105–108**

***In vitro* regeneration of *Bambusa balcooa* Roxb.: Factors affecting changes of morphogenetic competence in the axillary buds**
M. Das, A. Pal **109–112**

Study of embryo rescue in floribunda rose
A. Mohapatra, G.R. Rout **113–117**

Micropropagation of zedoary (*Curcuma zedoaria* Roscoe) – a valuable medicinal plant
N.H. Loc, D.T. Duc, T.H. Kwon, M.S. Yang **119–122**

Volume 81 No. 2 May 2005

Influence of explant, temperature and different culture vessels on *in vitro* culture for germplasm maintenance of four mint accessions
Md. Tariqul Islam, D. Philibert Dembele, E.R. Joachim Keller **123–130**

Production of transgenic creeping bentgrass (*Agrostis stolonifera* var. *palustris*) plants by *Agrobacterium tumefaciens*-mediated transformation using hygromycin selection
Ning Han, Dong Chen, Hong-Wu Bian, Min-Juan Deng, Mu-Yuan Zhu **131–138**

Transformation of pollen embryo-derived explants by *Agrobacterium tumefaciens* in *Hyoscyamus niger*
Shanjun Tu, R.S. Sangwan, V. Raghavan, D.P.S. Verma, B.S. Sangwan-Norreel **139–148**

Prevention of hyperhydricity in micropropagated carnation shoots by bottom cooling: implications of oxidative stress
Sadhy Saher, Abel Piqueras, Eladio Hellin, Enrique Olmos **149–158**

The accumulation of isocamptothecin A and B in suspension cell culture of *Camptotheca acuminata*
Fang Yu, Dongyan Zhang, Fengwu Bai, Lijia An **159–163**

Expression of the B subunit of *E. coli* heat-labile enterotoxin in tobacco using a herbicide resistance gene as a selection marker
Tae-Jin Kang, So-Chon Han, Moon-Sik Yang **165–174**

***Agrobacterium rhizogenes* is a useful transporter for introducing T-DNA of the binary plasmid into the chrysanthemum, *Dendranthema grandiflorum* Kitamura, genome**
Masato Tsuro, Takashi Kubo, Yoshiaki Shizukawa, Tetsuyuki Takemoto, Koji Inaba **175–181**

Osmotic sucrose enhancement of single-cell embryogenesis and transformation efficiency in *Oncidium*
Shu-Hua Li, Chang-Sheng Kuoh, Yau-Huang Chen, Hong-Hwa Chen, Wen-Huei Chen **183–192**

Cryopreservation of *Robinia pseudoacacia*
H. Verleysen, P. Fernandes, I. Sánchez Pinto, E. Van Bockstaele, P. Debergh **193–202**

The *rolB* gene promotes rooting *in vitro* and increases fresh root weight *in vivo* of transformed apple scion cultivar 'Florina'
V.V. Radchuk, V.I. Korkhovoy **203–212**

Experimental designs suitable for testing many factors with limited number of explants in tissue culture
Mehmet Nuri Nas, Kent M. Eskridge, Paul E. Read **213–220**

The role of calcium nutrition in potato (*Solanum tuberosum*) microplants in relation to minimal growth over prolonged storage *in vitro*
Debabrata Sarkar, Suman K. Pandey, A. Chanemougasoundharam, Kuldip C. Sud **221–227**

Factors affecting transformation efficiency of embryogenic callus of Upland cotton (*Gossypium hirsutum*) with *Agrobacterium tumefaciens*
Shuangxia Jin, Xianlong Zhang, Shaoguang liang, Yichun Nie, Xiaoping Guo, Chao Huang **229–237**

Research notes

In vitro* propagation of the genus *Clivia
Yidong Ran, Sandra Simpson **239–242**

Induction of somatic embryogenesis in cultured cells of *Chenopodium quinoa*
S. Eisa, H.W. Koyro, K.H. Kogel, J. Imani **243–246**

In vitro* plant regeneration from the immature seeds of *Cymbidium faberi
Yongqin Chen, Xiao Liu, Youqi Liu **247–251**

Volume 81 No. 3 June 2005

Special Issue: Liquid Culture Systems for *in vitro* Plant Propagation

Guest Editors: Anne Kathrine Hvoslef-Eide & Walter Preil

Preface
Anne Kathrine Hvoslef-Eide, Walter Preil **253**

Bioreactor design for propagation of somatic embryos
Anne Kathrine Hvoslef-Eide, Odd Arild S. Olsen, Ragnhild Lyngved, Cristel Munster, Petter H. Heyerdahl **265–276**

Simple bioreactors for mass propagation of plants
Meira Ziv **277–285**

Application of bioreactor systems for large scale production of horticultural and medicinal plants
K.Y. Paek, D. Chakrabarty, E.J. Hahn **287–300**

Multiplication of *Chrysanthemum* shoots in bioreactors as affected by culture method and inoculation density of single node stems
Eun-Joo Hahn, Kee-Yoeup Paek **301–306**

Control of growth and differentiation of bioreactor cultures of *Physcomitrella* by environmental parameters
Annette Hohe, Ralf Reski **307–311**

Optimisation of growing conditions for the apple rootstock M26 grown in RITA containers using temporary immersion principle
Li-Hua Zhu, Xue-Yuan Li, Margareta Welander **313–318**

Shoot regeneration from nodules of *Charybdis* sp.: a comparison of semisolid, liquid and temporary immersion culture systems
Ch. Wawrosch, A. Kongbangkerd, A. Köpf, B. Kopp **319–322**

Propagation of Norway spruce via somatic embryogenesis
Sara von Arnold, Peter Bozhkov, David Clapham, Julia Dyachok, Lada Filonova, Karl-Anders Högberg, Mathieu Ingouff, Malgorzata Wiweger **323–329**

Somatic embryogenesis by liquid culture of epidermal layers in sunflower: from genetic control to cell development
Michel Petitprez, A. Sarrafi, E. Flores-Berrios, X. XuHan, C. Briere, L. Gentzbittel **331–337**

Mass propagation of conifer trees in liquid cultures–progress towards commercialization
Pramod K. Gupta, Roger Timmis **339–346**

Use of the temporary immersion bioreactor system (RITA) for production of commercial *Eucalyptus* clones in Mondi Forests (SA)
B. McAlister, J. Finnie, M.P. Watt, F. Blakeway **347–358**

Efficiency in thin-film liquid system for *Hosta* micropropagation
Jeffrey Adelberg **359–368**

Instructions for Authors **369–372**

Author Index **373–374**
